COOLING CLOCHE VARIOFRESH – THE OPTIMUM LEVEL OF COLD TEMPERATURE RETENTION USING ONLY ONE COMPONENT

- Perfect for hygienic covering and cooling of all cold meals for breakfast, lunch and dinner.
- Easy handling for early pre-evening portioning.

- The solid construction ensures a long life, and the rounded edges give it a distinguished look.
- For serving evening meals: Easily distinguished from the insulating VARIO cover from midday; outside stacking points are an identifying feature.

COOLING CLOCHE VARIOFRESH _____ HOSPITALA

COOLING CLOCHE VARIOFRESH

- For plates of up to 26 cm (10¼ in.) and bowls up to 19.4 cm (7¾ in.) in diameter.
- Ideal for covering and cooling cold side dishes, such as cooked meats and cheese – or dressed salads for midday meals – so these items can be positioned between the hot dishes in the tray transport trolley.
- No system base part, so the eating height is conveniently low, very much like at home.
- Robust polypropylene with a cooling core in the lid with foam-lined sides to cool food to the perfect temperature.
- Large stacking points to enable drying and quick chilling of the cooling cloches after rinsing and for optimum deep-freezing and stacking.
- The lid lifts easily thanks to a handy gripping edge.
- Deep gripping overlap which ensures a secure hold on the plate and will withstand even the most difficult of journeys.
- The matt surface structure ensures that condensation does not drip onto the food but instead remains on the inside of the lid in small droplets.
- Easy handling when laying out food and when cleaning thanks to an elegant, functional design and high-quality finish.

Robust polypropylene

AVAILABLE COLOURS
