

Zertifikat

Certificate

**Fire protection rating for the
BLANCO COOK front cooking station BC FS 2.1 / FS 3.1 / FS 4.1,
especially under extreme conditions of use.**

Customer:
BLANCO Professional GmbH + Co KG, Flehinger Straße 59,
75038 Oberderdingen

The unit provided for fire protection rating

"BLANCO COOK front cooking station"

**by the company BLANCO Professional GmbH + Co KG, Flehinger Straße 59, 75038
Oberderdingen, is suitable for the intended operation without any special restrictions.**

No dangers are posed by the entire unit, and even under extreme fire loads no spreading of fire or malfunctions of any kind occurs. Even the extreme flame loading caused by a grease explosion and flambéing was unable to cause lasting damage to the entire unit. The flame protection filter used in accordance with Class A (aerosol separator, flame arrestors as specified in DIN 18869-5) completely absorbs the flames and the majority of the resulting heat. It is not possible for flames to spread inside the unit.

The tested unit can be used without additional fire-protection safety equipment.

This certificate is part of a fire protection rating for the entire unit "BLANCO COOK front cooking station".
