PLATE DISPENSERS FOR KIDS.

A perfect fit: the new plate dispensers Kids with a lower height are a welcome addition to the BASIC LINE Kids serving system modules.

LITTLE EXTRAS.

Optimum serving height (750 mm)
for children of up to 10 years of age

Extra small: a child-friendly serving system such as BASIC LINE Kids is adapted to children's height with lower serving system modules. There are now two unheated BLANCO plate dispensers in a time-tested design, with a serving height of 750 mm:

- TS-1 18-33 Kids
- TS-2 18-33 Kids

Extra versatile: round or rectangular, large or small – the new square plate tube can take on anything. Because of the practical hole pattern, the plate dispensers can be quickly and easily adjusted to fit almost any dish shape.

Using additional plate guides, you can store up to four stacks of plates, dishes or small bowls in a single tube.

Little extras:

- Removable plate tube
- Tool-free Easy Setting System for adjusting plate dispensers to the weight of plates and dishes
- Optional refilling signal
- Retaining clip for hooded covers
- Optional hanging frame for Gastronorm containers

All BASIC LINE Kids models can be viewed at
